

Olena Rudenko

Senior Product Designer

Senior Product Designer with **15+ years of experience** designing digital products across SaaS, airline technology, IoT, fintech, travel, hospitality, and consumer platforms. Currently at FLYR, I design experiences for the Offer & Order Management System (OOMS), primarily across Contact Center and Retail modules, helping simplify complex airline retail operations and personalise digital offers. My work combines **product thinking, UX research, interaction design, and scalable design systems** to simplify complex workflows and create experiences that work for both users and businesses.

Work experience:

July 2023 – Present
Amsterdam, NL

Senior Product Designer

Flyr

Designing airline retailing experiences within FLYR's AI-powered Offer & Order Management platform.

- Design experiences for the Offer & Order Management System (OOMS), primarily across Contact Center and Retail modules, helping airlines simplify retail operations and personalise digital offers.
- Define and evolve scalable design patterns in collaboration with the design system and engineering teams.
- Conduct user research through interviews, surveys, and usability testing to validate product decisions.
- Design user flows, wireframes, prototypes, and high-fidelity product experiences.
- Translate complex airline workflows into clear, efficient, and scalable experiences.
- Iterate on solutions based on research findings, usability results, and stakeholder feedback.
- Collaborate closely with product, engineering, and business stakeholders throughout the product lifecycle.

July 2018 – June 2023
Amsterdam, NL

Senior UX/UI Designer - Front-end Development

FeelRobotics

Designed connected-device experiences and SaaS products across web, mobile, and tablet platforms.

- Planned and implemented UX strategies for iOS and Android applications controlling connected devices.

- Designed SaaS experiences across web, mobile, and tablet environments.
- Created interactive prototypes and contributed patterns to the design system.
- Conducted UX research and translated findings into product improvements.
- Worked closely with product and engineering teams in an agile development environment.
- Contributed to front-end implementation using React Native, HTML, and CSS.

January 2017 – July 2018

Amsterdam, NL

Senior UI/UX Designer

 Freelance

Delivered UX and UI design for mobile applications, payment experiences, and hospitality products.

- Designed mobile experiences for hospitality and service-based products.
- Designed responsive payment flows and conversion-focused digital experiences.
- Created responsive email experiences for hotel promotions and special offers.

August 2013 – November 2016

Dnipro, UA

Senior UI/UX Mobile Designer

 Together Networks Limited

Designed mobile-first dating products for an international portfolio of consumer digital platforms.

- Designed mobile web experiences and reusable UI patterns.
- Created design guidelines to support consistency across products and teams.
- Created prototypes and planned UX strategies for new and existing products.
- Collaborated with product, engineering, and HTML development teams.
- Reviewed implemented products to ensure visual and interaction fidelity.

March 2013 – August 2013

Dnipro, UA

Designer · HTML Coder

 Cupid plc

Designing digital experiences for traditional and casual dating platforms serving a global user base.

- Designed pixel-perfect email experiences across multiple dating products and campaigns.
- Designed user interfaces and digital experiences for web and mobile products.
- Planned and implemented UX strategies for iOS and Android applications controlling connected devices.
- Collaborated closely with product and engineering teams to translate design concepts into functional experiences.
- Maintained visual consistency across products and customer touchpoints.

October 2012 – March 2013

Dnipro, UA

Web Designer

 ISD Information Systems

Designing web and mobile experiences for healthcare software products.

- Designed user interfaces for web and mobile products.
- Collaborated directly with clients to understand goals and solve design problems.
- Redesigned existing products to improve usability and visual consistency.

July 2011 – September 2012

Dnipro, UA

Designer · HTML Coder

 Cupid plc

- Created pixel-perfect email designs across multiple dating campaigns.
- Translated approved designs into responsive HTML email templates.
- Designed user interfaces and digital experiences for web and mobile products.
- Ensured visual consistency and accurate implementation across email clients.
- Collaborated with product and engineering teams to deliver email experiences.

February 2011 – May 2011
